Brief description of Project: This project will provide a pre-fabricated sixty-foot bridge for pedestrian and equestrian access over Upper Live Oak Creek in Bonelli Regional Park. The trail crossing at Upper Live Oak Creek is an integral part of the only loop trail in Frank G. Bonelli Regional Park which provides riders and hikers the opportunity to circle Puddingstone Reservoir and return to their point of beginning for an "in-the-park" ride. The loop trail is by far the most popular trail ride within the park even though the Upper Live Oak Creek crossing is considered by most trail users to be a significant obstacle. This creek crossing is also an obstacle for the many riders and hikers who are passing through Bonelli Park on their way north to the Angeles National Forest or south to the San Gabriel River Trail which leads to the Pacific ocean.

For Dev. Projects Land Tenure – Project is: 1,359.7 acres

1,359.7 Acres owned in fee simple by Grant Applicant

 Acres available under a year lease

 Acres other interest (explain)

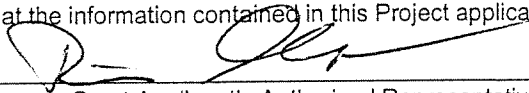

For Acquisition Projects Project land will be acres

 Acres acquired in fee simple by Grant Applicant

 Acres in other than fee simple (explain)

I certify that the information contained in this Project application form and application requirements is accurate.
